

Quick start guide for model LS6245

Install the telephone base

Install the telephone base as shown below.

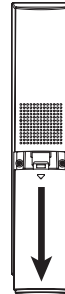

note

1. Use only the power adapter and battery supplied with your VTech telephone.
2. For complete feature instructions, please refer to your user's manual.

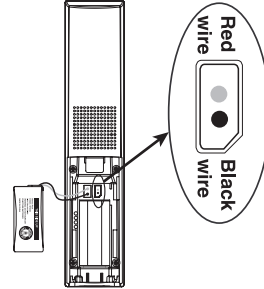

Battery installation and charging

Install the battery as shown below. For optimal performance, charge the handset battery for at least 16 hours before use.

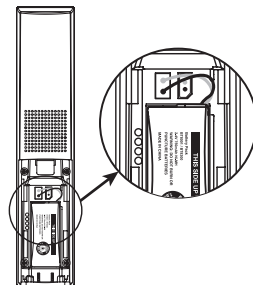

1. If the battery compartment cover is on the handset, press on the triangle and slide the cover to remove.

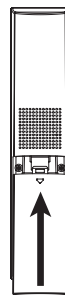

2. Plug the battery connector securely into the socket inside the handset battery compartment, matching the color-coded label.

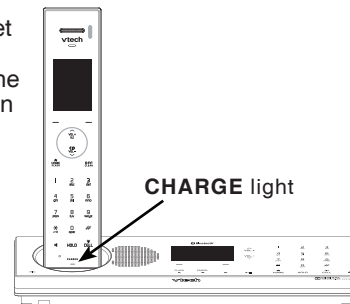

3. Place the battery with the label **THIS SIDE UP** facing up and the wires inside the battery compartment.

4. Align the cover flat against the battery compartment, then slide it towards the center of the handset until it clicks into place.

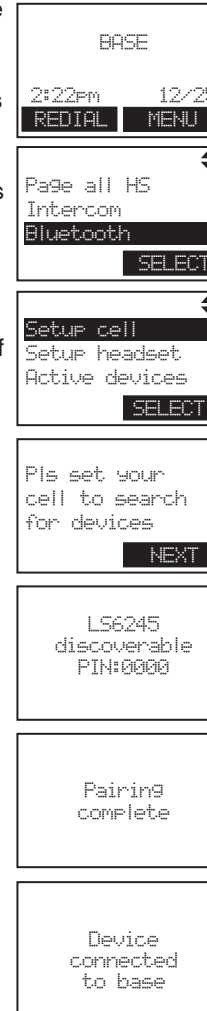

5. Charge the handset by placing it in the telephone base. The **CHARGE** light is on when the handset charges.

Pair your first Bluetooth cell phone

To pair and connect your first Bluetooth cell phone:

1. Press the **MENU** softkey on the telephone base.
2. Press **^/VOL+** or **VOL-/~** to highlight **Bluetooth**, then press the **SELECT** softkey.
3. Press **^/VOL+** or **VOL-/~** to highlight **Setup cell**, then press the **SELECT** softkey.
4. Press the **NEXT** softkey to set the telephone base in discoverable mode.
5. Turn on the Bluetooth feature of your cell phone and search for or add new devices.
6. Once your cell phone finds **VTech LS6245**, select it.
7. Enter the telephone base PIN (the default PIN is **0000**) into your cell phone.
8. When successfully connected, **Device connected to base** displays.

note

The pairing process may take up to one minute. If the pairing process fails, try again.

Pair your first Bluetooth headset

To pair and connect your first Bluetooth headset:

1. Press the **MENU** softkey on the telephone base.
2. Press **^/VOL+** or **VOL-/~** to highlight **Bluetooth**, then press the **SELECT** softkey.
3. Press **^/VOL+** or **VOL-/~** to highlight **Setup headset**, then press the **SELECT** softkey.
4. Set your headset to discoverable mode.
5. Press the **NEXT** softkey on the telephone base to search for your headset.
6. Once the telephone base finds your headset, press the **SELECT** softkey.
7. Enter the PIN of your headset (the PIN for most Bluetooth devices is **0000**), then press the **NEXT** softkey. The screen displays **Headset setup complete**.
8. When the base displays **Connect headset to base?**, press the **YES** softkey.
9. When successfully connected, **Device connected to base** displays.

note

The pairing process may take up to one minute. If the pairing process fails, try again.

More about Bluetooth

You can make and receive calls using the home and cell lines. The home line is your conventional telephone land line. The cell line is the communications service provided through your Bluetooth enabled cell phone.

Before using your Bluetooth device(s) with the telephone base, make sure that:

- Your cell phone and/or headset devices are not connected to any other Bluetooth device(s) and the Bluetooth wireless function is on.
- Your device is connected to the telephone base and is on the active devices list.

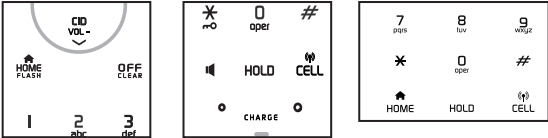

If you experience difficulty using your Bluetooth cell phone:

- Make sure that your Bluetooth cell phone is working properly. See your user’s manual of your Bluetooth device for more information.
- Delete **VTech LS6245** on your cell phone, then delete your cell phone on the paired devices list.
- Repeat the pairing process in **Pair your first Bluetooth cell phone** in this quick start guide.

Make, answer and end a call

To make a home call:

- Press **HOME/FLASH** or **[phone icon]** on the handset and then enter the telephone number.
- OR-
- Press **HOME** on the telephone base and then enter the telephone number.

To predial a home call:

- Dial the number and then press **HOME/FLASH** or **[phone icon]** on the handset.
- OR-
- Dial the number and then press **HOME** on the telephone base.

To answer a home call:

- Press **HOME/FLASH** or **[phone icon]** on the handset.
- OR-
- Press **HOME** on the telephone base.
- OR-
